EPIDEMIC! Deaths from drug abuse overdoses on Staten Island.  
Cause, effect, and solution.

Luke Nasta  
Director, Camelot of Staten Island Inc.

This lecture will discuss the history, current status and future of the use of heroin and opiates on Staten Island. There is a terrible epidemic of deaths of young persons involving the use of these drugs. The lecturer has decades of experience in this area, operates an in patient treatment center dealing with abuse of these substances, and will describe how this situation came to be and what can be done about it.

The lecture is open to all students, faculty and staff at CSI, and to community members.
