### **Faculty Center for Professional Development**

# **Boost your Academic Profile With Open Access Tools**

-Co-sponsored by the CSI Library and the Faculty Center-

#### **YOU ARE WELCOME**

Anne Hays, Instruction Librarian and OER Liaison, will show you how to boost your academic profile using open access tools. In this workshop, attendees learn how to make their work more visible in search engines by adding it to CUNY Academic Works, and then use the durable urls to build an online profile in Google Scholar, Academic Commons, or their campus faculty page. We will also address evaluating journals, researching impact factor, and how to navigate publisher contracts and open access. Common questions about different social media platforms—including the benefits of submitting to Academic Works over Academia.edu or ResearchGate—are also addressed.

#### **Date:**

Tuesday, October 31, 2017

#### Time:

2:30pm-3:30pm

#### **Location:**

Faculty Lounge (IL-203)
