

## Faculty Center for Professional Development

Academic Affairs/ Undergraduate Studies and Student Success

### **CUNY Unlimited -Developing Universal Design Strategies-**

**(A Faculty Interest Group)**

#### **CSI FACULTY ARE WELCOME TO ATTEND**

We are excited to announce that our FIG, CUNY Unlimited- Developing Universal Design Strategies, will have its first meeting of this year this Thursday (02/22) from 12:00-1:00 in 1L-203. This FIG is part of a new initiative at CUNY to develop a meaningful credential for students with intellectual disabilities, CUNY Unlimited/TPSID. The purpose of this FIG is to create a space where faculty can share creative instructional strategies to support neurodiverse students, can learn more about UDL, and can help guide development of more supports for faculty teaching neurodiverse students. The FIG will be structured as a monthly workshop that participating faculty co-design after an initial introduction to current research about UDL and CUNY Unlimited. It will meet on alternating Wednesdays and Tuesdays so people with different schedules can attend at least some of the sessions. Also, feel free to invite any CSI Professional staff/graduate students who may be interested in this.

**Date:**

**Thursday, February 22, 2018**

**Time:**

**12:00pm-1:00pm**

**Location:**

**Faculty Lounge (1L-203)**
