PG and CC CLUE Certified
Refreshments will be served

JOIN US ON THE MAPPING DAY OF THE YEAR
1C—GREEN DOLPHIN LOUNGE | 9AM—12PM

WHAT IS GIS?

A geographic information system (GIS) is a framework for gathering, managing and analyzing data. Rooted in the science of geography, GIS integrates many types of data. It analyzes spatial location and organizes layers of information into visualization using maps and 3D scenes. With this unique capability, GIS reveals deeper insights into data, such as patterns, relationships, and situations – helping users make smarter decisions.

SPEAKERS

William J. Fritz, Ph.D.
President
College of Staten Island

Joseph J. Kerski, Ph.D., GISP
Education Manager
Esri

Alan Benimoff, Ph.D.
Professor
Engineering and
Environmental Science

Nerve Macaspac, Ph.D.
Assistant Professor
Political Science
and Global Affairs

Jonathan Peters, Ph.D.
Professor
Finance & Data Analytics

Ian Fowler,
Geospatial Librarian
and Map Curator
NYC Public Library

Emily Goldman
Director of Civic Inclusion
Fellowship Program
BetaNYC

Georgina Castano
CEO
Walk & Explore
