Git from Scratch Workshop
1N—114

October 30, 2018
2:30pm—4pm

GitHub

GitHub—built for developers, is a development platform inspired by the way you work. From open source to business, you can host and review code, manage projects, and build software alongside 28 million developers.

git

Git—everything is local, is a free and open source distributed version control system designed to handle everything from small to very large projects with speed and efficiency.

☑ What is teamwork?
☑ What is Git/Github?
☑ What is Gitflow?
☑ Merge conflicts
☑ Practical exercise

☑ Intro to command line/terminal/linux
☑ Contributing to an open source

Muhand Jumah
CEO, Absolute Mobile
CSI Tech Incubator Alum
