presents

“Prep for Spring” Workshops

January 9-13, 2023

Setting the stage for a successful spring semester ahead, please find below a schedule of upcoming workshops that address the use of innovative tools and workshops that will prompt reflection on practices in the classroom to enhance student learning and retention. Workshops are facilitated by faculty and staff from CSI and beyond.

Hands-on experience will be available in a computer lab for those who attend In-Person workshops. Full descriptions and registration links for each of these workshops will follow shortly. Save the Dates.

V = Virtual

IP = In-Person
